

Introducing the Gun-Type Connecting Tool

Do you have any these concerns?

This gun-shaped connecting tool, specifically designed for Thomson Die, was developed in response to customer concerns.

Anyone can easily connect with a consistent width and depth.

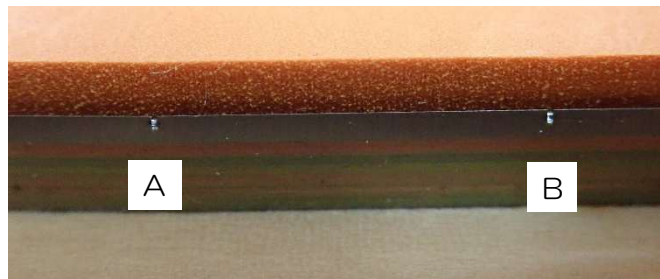

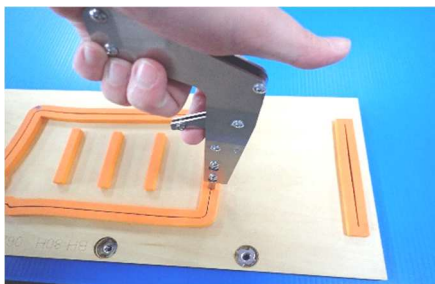

how to use it

It can also be used on wooden molds covered

with sponge. the connection width can be adjusted from 0.2mm ~0.3mm

Simply place the tip of the tool vertically on the location where you want to the connection and pull the trigger!

It weighs only 230g, and it is easy to use for women.

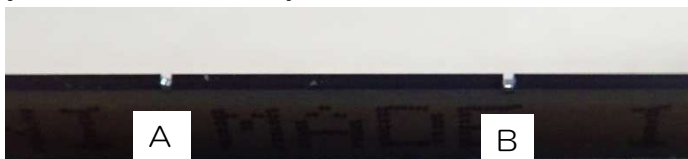

The actual result of connector

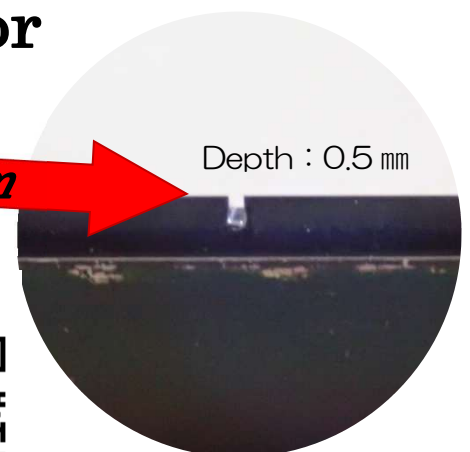

joints made by mold

Joints made by Gun-Type Connecting Tool

When a connecting tool is hit from above with a hammer, there is variation in depth and width.
